Now in its 12th year, SIF 2016 will provide attendees the most comprehensive review of the latest advances in heart and vascular medicine. Cardiovascular medicine continues to evolve and change rapidly. This requires a robust commitment to continuing medical education. Consistent with our tradition, SIF 2016 will utilize a world-class faculty who possess a profound understanding of pathophysiologic mechanisms of disease, as well as the most innovative treatment options for those patients afflicted with cardiovascular disease. This extraordinary faculty provides a powerful educational experience for physicians, nurses and allied health professionals.

Our educational objectives are accomplished through didactic lectures, taped-case presentations and thought-provoking live case transmissions from leading centers and experts throughout the world. For over a decade the unique appeal of this educational approach, as well as an extraordinary faculty, has been responsible for the continued growth of the Scottsdale Interventional Forum. SIF 2016 will include workshops and special symposia covering a broad range of topics. Transcatheter therapies for structural heart disease have evolved rapidly. SIF 2016 will devote live satellite cases from leading centers throughout the world, as well as didactic sessions to important topics such as TAVR, transcatheter mitral valve therapies, left atrial therapeutics and renal denervation, just to name a few.

As complex coronary intervention continues to be an area of great emphasis in clinical practice, dedicated sessions at SIF 2016 will include CTOs, complex multivessel and left main disease and supported PCI utilizing left ventricular assist devices. Detailed reviews of new DES platforms, biodegradable polymers and stents with an emphasis on current appropriate criteria in coronary intervention will also be covered. These important symposia will be conducted by experts in the field in which attendees will have direct access to these experts throughout the 4 days of the Forum.

The primary objective of SIF 2016 is to provide attendees the requisite skills to improve bedside management of complex cardiovascular disease and practically apply new innovative technologies in the treatment of the cardiovascular patient in order to improve patient care and procedural outcomes. The rich educational experience and open interaction with a world-class faculty is accomplished against the background of the beautiful desert southwest.

We look forward to seeing you in Scottsdale, Arizona at the 2016 Scottsdale Interventional Forum!

Sincerely,

SIF Symposium Directors

Dear Colleague,

Symposium Overview

Now in its 12th year, SIF 2016 will provide attendees the most comprehensive review of the latest advances in heart and vascular medicine. Cardiovascular medicine continues to evolve and change rapidly. This requires a robust commitment to continuing medical education. Consistent with our tradition, SIF 2016 will utilize a world-class faculty who possess a profound understanding of pathophysiologic mechanisms of disease, as well as the most innovative treatment options for those patients afflicted with cardiovascular disease. This extraordinary faculty provides a powerful educational experience for physicians, nurses and allied health professionals.

Our educational objectives are accomplished through didactic lectures, taped-case presentations and thought-provoking live case transmissions from leading centers and experts throughout the world. For over a decade the unique appeal of this educational approach, as well as an extraordinary faculty, has been responsible for the continued growth of the Scottsdale Interventional Forum. SIF 2016 will include workshops and special symposia covering a broad range of topics. Transcatheter therapies for structural heart disease have evolved rapidly. SIF 2016 will devote live satellite cases from leading centers throughout the world, as well as didactic sessions to important topics such as TAVR, transcatheter mitral valve therapies, left atrial therapeutics and renal denervation, just to name a few.

As complex coronary intervention continues to be an area of great emphasis in clinical practice, dedicated sessions at SIF 2016 will include CTOs, complex multivessel and left main disease and supported PCI utilizing left ventricular assist devices. Detailed reviews of new DES platforms, biodegradable polymers and stents with an emphasis on current appropriate criteria in coronary intervention will also be covered. These important symposia will be conducted by experts in the field in which attendees will have direct access to these experts throughout the 4 days of the Forum.

The primary objective of SIF 2016 is to provide attendees the requisite skills to improve bedside management of complex cardiovascular disease and practically apply new innovative technologies in the treatment of the cardiovascular patient in order to improve patient care and procedural outcomes. The rich educational experience and open interaction with a world-class faculty is accomplished against the background of the beautiful desert southwest.

We look forward to seeing you in Scottsdale, Arizona at the 2016 Scottsdale Interventional Forum!

Symposium Information

TARGET AUDIENCE
The 2016 Scottsdale Interventional Forum has been designed to meet the educational needs of Interventional and General Cardiologists, Vascular Surgeons, Interventional Radiologists, Cath Lab Nurses and Technicians and other medical professionals who have an interest in heart and vascular medicine.

OBJECTIVES
Upon completion of this CME Activity, participants will be able to:

• Discuss the appropriate use and application of catheter-based vs. surgical-based revascularization in patients with complex coronary artery disease.
• Appropriately apply adjunctive invasive imaging and invasive functional testing for diagnosis and management of complex coronary artery disease.
• Apply new treat algorithms for complex coronary disease including unprotected left main disease and chronic total occlusion.
• Discuss the indications, benefits and relative risk of radial artery-based coronary interventions.
• Interpret the most relevant trials of the past year in coronary therapeutics including the role of bioabsorbable scaffold technology, bioresorbable polymer technology and other novel stent designs.
• Differentiate the distinction between the specific clinical feature of appropriate use criteria and the evidence-based summaries on which PCI guidelines are developed.
• Describe the relative role of transcatheter and surgical therapies for advanced valvular heart disease.
• Discuss the role of newer structural heart management, including left atrial appendage therapies.
• Explain the emerging role of new catheter technologies for the treatment of medical refractory hypertension.

PHYSICIAN CONTINUING EDUCATION
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of CMEsolutions and Gaffney Events. The CMEsolutions is accredited by the ACCME to provide continuing medical education for physicians.

NURSING CONTINUING EDUCATION
This activity has been submitted to the Western Multi-State Division for approval to award contact hours. The Western Multi-State Division is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. For more information regarding contact hours, please call Shirlene DeHart at 520-544-2938. Western Multi-State Division and ANCC Commission on Accreditation do not approve or endorse any commercial products displayed.

AMERICAN SOCIETY OF RADIOLOGIC TECHNOLOGISTS
Category A/A+ CE credit is pending approval by the ASRT

INSTRUCTIONS TO RECEIVE CREDIT
To receive credit, participants must attend credit designated sessions, and must submit a completed evaluation and application for credit at the conclusion of the Scottsdale Interventional Forum.

DISCLOSURE OF CONFLICTS OF INTEREST
CMEsolutions requires everyone in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by CMEsolutions for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and appropriateness of patient care recommendations.

General Session Agenda

12:00 pm REGISTRATION / LUNCH
Hyatt Regency Scottsdale Resort at Gainey Ranch
Vaquero Ballroom, Level 1
12:50 pm Welcome and Opening Remarks
David G. Rizik, MD

LEFT ATRIAL APPENDAGE THERAPIES – PART I
Modestors: Brijeshwar S. Maini, MD, Mark Reisman, MD
Panelists: Robert J. Applegate, MD, Michael J. Rinaldi, MD, Jeffrey A. Southard, MD, Steven J. Yakubov, MD

1:00 pm LIVE CASE 1 | LAA CLOSURE
Satellite from Cleveland Clinic, Cleveland, Ohio
Lab: Samir Kapadia, MD

2:00 pm Watchman Implantation: Step-by-Step Description
Mark Reisman, MD
2:15 pm Choosing Between Endocardial Left Atrial Closure and Pericardial Left Atrial Exclusion
Steven J. Yakubov, MD
2:30 pm Watchman Taped Case Presentation
Brijeshwar S. Maini, MD

IMPELLA SYMPOSIUM
Moderators: Morton J. Kern, MD, Manish A. Parikh, MD
Panelists: Douglas E. Drachman, MD, James A. Goldstein, MD, Michael A. Kutcher, MD, Sahil A. Parikh, MD, Jeffrey A. Southard, MD

2:45 pm LIVE CASES 2 & 3
Impella-Supported CTO
Satellite from Banner University Medical Center Phoenix, Phoenix, Arizona
Lab: William L. Lombardi, MD, Ashish Pershad, MD
Course Description
The SIF 2016 Nurse / Technologist Symposium is designed to provide attendees with a foundation to guide delivery of care for patients undergoing cardiac interventional procedures.

Objectives
- Navigate the clinical indications for complex coronary and structural heart procedures
- Recognize and manage the potential complications that can occur both during and after the peri-procedural period
- Understand cardiovascular physiologic concepts to help develop individualized care plans

Agenda
7:30 am REGISTRATION / CONTINENTAL BREAKFAST
Hyatt Regency Scottsdale Resort at Gainey Ranch Vaquero Ballroom, Level 1
8:00 am Welcome and Opening Remarks
David G. Rizik, MD, Joanne Saczynksi, RN, MSN, CCRC, Lynne Jones RN, BSN, RCIS
8:10 am KEYNOTE LECTURE
Interventional Cardiology: Yesterday, Today and Tomorrow
Morton J. Kern, MD
8:30 am Tell Me Why You Chose That Drug and How Long Do I Give It? An Update on Antiplatelet Therapy, Anticoagulation Therapy and On and On
James B. Hermiller, MD
9:05 am Update on New Device Technology: Stents, Scaffolds and Valves OH MY!
David G. Rizik, MD
9:20 am Part 1: Physical Findings Pre-Procedure
Ramy Doss, MD
9:35 am Part 2: Physical Findings Post-Procedure
Ramy Doss, MD
9:50 am BREAK / VISIT EXHIBITS
Douglas E. Drachman, MD
10:20 am How Do I Get This Patient to the Cath Lab Procedure and What Do I Do with Them When They Return? Caring for Patients Pre and Post Diagnostic Catheterization and PCI: Interpreting the Reports
Lynne Jones, RN, BSN, RCIS
10:30 am Technology Modalities in the Cath Lab: When Do We Use It and Why? FFR, IVUS, OCT...
Bill Mulroy, RTR
10:50 am Structural Heart:
Taking the Patient from A – Z, It Takes a Village
- Getting the Patient to the Procedure
  - Lori Wood, RN, BSN, CCRP, CPHN
- What Happens During the Procedure
  - Robert F. Burke, MD
- Arrival at the ICU
  - Teresa Bowman, RN
- On to Tele
  - TBD
- How Do We Prepare the Patient to Go Home?
  - Edyth Jones, RN
11:30 am CHF: How Far Have We Come
James A. Goldstein, MD
11:45 am Less Invasive Methodologies for Arrhythmia Detection
Thomas Mattioni, MD
12:00 pm Closing Remarks

Cardio Help Heart Lung Support
8:45 am Mechanics
Robert D. Riley, MD
8:55 am Nursing Care
Mark Stahl, BSN, RN, CCRN

Impella-Supported Unprotected Left Main
Satellite from HonorHealth Shea Medical Center, Scottsdale, Arizona
Lab: James B. Hermiller, MD, David G. Rizik, MD

4:00 pm  Closing Remarks
Interventional Cardiology Fellows are invited to this educational program focused on topics relevant in today’s clinical setting. Utilizing a system-based teaching method, didactic modules, interactive case reviews, live-case transmission and hands-on product modeling workshops, Fellows will be challenged to rethink treatment strategy and product selection based on the clinical insight and treatment rationale from the program faculty.

The key topics covered will include the following:

- Fundamentals of Complex Coronary Intervention including Structural Heart Therapy, Vascular Access and Closure
- Current topics in Endovascular Intervention
- Anticipation of Complications and Complications Management

NOTE: This program is intended to prepare Final Year Interventional Cardiology Fellows for interventional practice. Space is limited and acceptance will be considered on a first-come, first-served basis.

Hotel accommodations (room and tax) at the Hyatt Regency Scottsdale at Gainey Ranch for the nights of Wednesday, March 9th, Thursday, March 10th, and Friday, March 11th will be covered. A round-trip coach airline ticket will also be reimbursed, based upon the Fellows Course Guidelines. No International Travel will be covered.

Attendance at the SIF General Sessions is required and Full SIF Registration Fees are waived.

For more information and to register, please visit www.SIF2016.com
Symposium Supporters

The Scottsdale Interventional Forum will be supported through educational grants and exhibit fees from commercial supporters. The Course Directors will develop the educational content without any influence from commercial supporters. Exhibits will be available for viewing at all scheduled breaks. Following is a list of the 2015 SIF supporters. A complete list of the 2016 SIF Supporters and appropriate acknowledgement will be given to all supporters at the time of the meeting in the course syllabus.

Gainey Ranch Golf Club

Play one of the top rated golf courses in the country, exclusively available only to private club members and the guests of Hyatt Regency Scottsdale Resort and Spa. Surrounded by incredible scenery, Gainey Ranch Golf Club offers an exciting year-round challenge for golfers of any skill level. Each of the three distinct nine-hole courses, designed by Benz and Poellot, offers a different experience for players.

- The Lakes features varied terrain in a garden-like setting and plays around a variety of water features.
- The Dunes is set along dramatic terrain, reminiscent of Scottish Courses.
- Arroyo, the longest and most open course, features a meandering desert wash that provides a natural hazard throughout the nine.

On a daily basis, two nines are linked together to build a different 18-hole experience. Rated one of the top 75 golf courses in the United States by Golf Digest and one of the top 100 resort golf courses in the world by Golf Magazine, Hyatt Regency Scottsdale Resort and Spa at Gainey Ranch provides world-class facilities for golfers.

www.experiencescottsdale.com

Visit over 100+ galleries in the Arts District or enjoy the Thursday evening ArtWalk. There are many activities to fill your day or evening including catching a show at the Scottsdale Center for the Performing Arts, or visiting the Scottsdale Museum of Contemporary Art. Downtown Scottsdale has hundreds of boutiques at the Scottsdale Waterfront South Bridge, Fifth Avenue Shops & Boutiques or you can venture over to Old Town Scottsdale.

Old Town Scottsdale is a neighborhood within Downtown Scottsdale that features a taste of the Old West with restaurants, shopping and Western bars. Come and visit and see why Scottsdale is the “West’s Most Western Town”!

Hiking

Cameback Mountain

5700 N. Echo Canyon Parkway
Scottsdale, AZ

Cameback Mountain is one of the most popular Arizona hiking areas. It is a well-known landmark and the highest point in Phoenix. Hikers, rock climbers, tourists, nature lovers and fitness buffs brave its sheer red sandstone cliffs and steep trails for an unparalleled, 360 degree view of the Phoenix/Scottsdale area and the mountains beyond. Climbing roughly 1,200 feet in just over one mile, it is an extremely strenuous hike by any standards. While hiking to the summit of Cameback Mountain, you will experience the dramatic rock formations and a variety of desert plants and animals.

Hotel Accommodations

Hyatt Regency Scottsdale Resort at Gainey Ranch
7500 E. Doubletree Ranch Road
Scottsdale, Arizona 85258

PH: 480.444.1234

$299.00 / night (plus discounted $10 resort fee)

www.scottsdale.hyatt.com

Bring the family and explore the endless wonders of this beautiful 27 acre Scottsdale resort. Set amidst flowering cactus and framed against the majestic McDowell Mountains, this remarkable Scottsdale Arizona resort and spa is minutes from a host of activities and miles from the ordinary.

Discover the remarkable amenities of Hyatt Regency Scottsdale Resort and Spa at Gainey Ranch, including championship golf, Spa Avania, a 2.5 acre water playground with over 10 pools and a 30’ waterslide, tennis or Camp Hyatt Kachina. Find your own opportunity for adventure just minutes from the resort.

Ideally located in the heart of one of Scottsdale’s most prestigious areas, the 27 acre Hyatt Regency Resort places the best of the Sonoran Desert at your beck and call. Golfers are elated to find a championship 27 hole course right outside their guestroom door. Spa lovers discover treatments that coincide with the body’s natural rhythms, adventurers take the road less traveled with our Green Zebra Adventures excursions, and everyone revels in the vast array of activities available; from hot air balloon flights to hiking, biking, jeep tours, Native American culture and stellar shopping spots.

A block of rooms has been reserved at the Hyatt Regency Scottsdale Resort and Spa for attendees of the 2016 SIF Symposium at a special reduced rate of $299.00 single or double occupancy per night plus tax, plus a reduced daily $10 resort fee (normally $25.00 / day). The daily resort fee includes: daily in-room wireless internet, access to Stay-Fit Fitness Center at Spa Avania, unlimited local & 800 phone calls, daytime shopping shuttle to Scottsdale Fashion Square Mall, Old Town Scottsdale and Arts District, unlimited use of tennis courts, resort bicycles and golf bag storage. To receive the discounted room rate, reservations must be confirmed by Tuesday, February 9, 2016. After that date, reservations will be subject to space and rate availability.

Note: This special reduced conference rate will be honored 2 days prior and 2 days after the symposium, based on availability.

Contact the Reservations Department directly at 480.444.1234 to request accommodations. When making reservations, please be sure to mention that you will be attending the Scottsdale Interventional Forum in order to obtain the discounted group rate.
